Number of employees: 8

Mission: To be the leading company in the industry of installation for photovoltaic panels systems, generating a considerable improvement in the environment.

Vision: To satisfy the needs of our customers, providing an ecological and thrifty alternative, which helps contribute to the environment and the economy of Mexican families.

We are a modern, conscious and ecological company specialized in the Renewable Energy industry, using photovoltaic products of the highest quality providing a complete service in training, installation and customer service, **operating since 2016** in collaboration with engineers specialized in solar energy.

A quality installation represents a high-value asset for your house or company, a powerful sales tool and a differentiator against the competition, as well as guaranteeing your investment in a tangible way.

Our purpose is to raise awareness in Mexicans regarding the use of solar energy as a benefit to their homes, commerce and industries and meet the needs of our customers, providing an ecological and thrifty alternative, which helps contribute to the environment.

LUXSUN ENERGIA RENOVABLE S. A DE C.V. It is a company which has the support of companies for example: **IUSA Group and IUSASOL**, which is recognized worldwide, among others.

Areas of expertise

- ✓ Interconnected photovoltaic system installations.
- ✓ Autonomous photovoltaic system installations.
